

Beginners and Enders

LEVEL: 1+

SKILLS: Creating 3-letter words, beginning sounds, ending sounds

EQUIPMENT: Letter die, Beginners and Enders game board, letter tiles (optional)

GOAL: To complete three words in a row: horizontally, vertically or diagonally (like BINGO)

TO PLAY COMPETITIVELY:

- One player uses the Beginners board, the other the Enders.
- Player one rolls the letter die and tries to use it to begin (or end) a word on their board. If they can't, the letter should go in the "reject" box. The player gets another roll.
- Player two does the same.
- The first player to get three words in a row, horizontally, vertically, or diagonally (like BINGO), wins!

TO PLAY COOPERATIVELY:

- Roll the letter die, and fill in the boxes on the page by placing a letter tile (for the letter rolled) in a box anywhere on page.
- Roll again and place your next letter tile. Keep rolling until you have completed your beginners and enders!

PRO TIP #1: To make it more difficult, if a player has to put a letter in the reject box, their turn is over.

PRO TIP #2: For an added challenge, if a player fills their "reject" boxes, they lose.
